Dimmig Must Stand Trial-Banks in Africa-A Pioneer's Death. San Francisco, January 9th.—This morning John A. Dimmig was brought from the County Jail into Judge Murphy's Court to hear the decision of the Court in regard to the motion of his attorneys to dismiss the information against him for the murder of Benhayon. Judge Murphy said that he would give no reasons for de nying the motion to dismiss, as the defend-ant would have to go to trial. He said "John A. Dimmig, what is your plea, guilty or not guilty?" The gentleman addressed looked inquiringly at his counsel, and receiving a nod in reply, answered, with a broad smile, "Not guilty." He was then taken back again to the County Jail.

Capyright, 1888, by the California Associated Press. Santa Rosa, January 9th.-It is generally believed among the legal fraternity of this city that Judge Rutledge will hold the attorneys to the agreement made in open Court before Judge Presley when the last continuance was granted in the Morrow case till January 24th. The stipulation filed and entered into by Foote, Henley and Oates for the defense, and Attorney-General Johnson and Flournoy for the prosecution, was that under no circumstances would a continuance be granted, with the single exception of Attorney-General Johnson's inability to return from Washington, where he is now engaged in the railroad tax cases. The defense, i their eagerness to get a continuance, made the single exception, which was agreed to by all the attorneys, with the understanding that if any other attorneys were unable to attend the case would proceed without

The Senate. Washington, January 9th .-- In the Senate a number of bills and memorials were offered, among them the following: By Jones of Nevada—A concurrent resolution

Lands, reported bills granting to the city of Colorado Springs, in the State of Colorado, certain lands for water reservoirs and grant-ing rights of way through public lands for irrigation purposes. Placed on the calendar.
The Senate then took up the resolution offered by Brown on the 4th of January for the repeal of the internal revenue laws. Brown addressed the Senate in favor of the resolution, and moved its reference to the mmittee on Finance.

Beck objected, and the resolution was laid on the table. The Blair educational bill was taken up, and Vest spoke in opposition. If he was called upon, he said, to frame a title for it, he would call it "An Act to erect a monu-fer ment to the memory of Alexander Hamil-ton, and to encourage mendicancy in the Southern States." Fifteen Year's Standing. opyright, 1888, by the California Associated Press. Washington, January 9th.—The Secretary of the Treasury to day transmitted to the House estimates for terms of the claim of Bishop & Co., bankers at Honolulu, which has been before Congress since 1873, for \$118,173 in gold coin with interest at 6 per cent. from the date of making the draft. The claim originated through a failure to pay the draft on the State Department drawn by ex-Consul Mattoon at Honolulu and negotiated through the claimants, for the relief of destitute seamen, the appropriation for that purpose having been ex-hausted at the time the draft was presented. Bishop & Co. negotiated the draft through the Bank of California, that bank not being apprised of the non-payment of the draft in Washington, with interest on the

opyright, 1888, by the California Associated Press.] Brown, of Georgia, delivered a speech in the Senate to-day which was so directly opposed to the views expressed by the President in his tariff message to Congress that it attracted universal attention. Brown's method of delivery also attracted the at-tention of the Senators and the spectators in the gallery. He sat in his chair, which is in the front row on the Democratic side, while he was talking. The only time prior to this that a Senator has addressed the Senate from his chair was in the case of the late Senator Morton, of Indiana, who was so crippled that he could not stand

OHIO'S GOVERNOR.

Governor Foraker, of Ohio, Inaugurated -His Address. COLUMBUS, January 9th.—The weather was propitious for the inauguration of Governor Foraker to-day. There was a larger crowd in attendance than at any similar occasion since the inauguration of William Allen as Governor. The parade, which took place immediately after the ording to letters received here from Colformal exercises, was composed of over bacco was not a luxury, but a necessity, and sixty companies of military, and as many more organizations in the form of political clubs and civic societies. All the important towns in the State were represented. The oath of office was administered to the Governor-elect by Chief Justice Owens.

THE COLD WAVE-A MATTER OF COR-RECT REPORTING.

It appears that the cold wave was no confined to Central and Northern California. According to the Los Angeles Express, which, as is well known, would make such an admission only when driven to its and would then make the statement a mild as possible, ice formed in Los Angeles Friday night. In its issue of the 7th, Saturday last, it said:

. The cold wave visited the south with a heavy The cold wave visited the south with a heavy frost, the temperature falling below the freezing point, leaving a thin film of ice upon standing water, and serving to remind one of the temperature of other latitudes. It was unusually cold for this section, and it is seldom in the history of the country that the mercury has fallen so low. Whether much damage will result from this unusual decline in the thermometer cannot yet be determined, but it was as sharp a touch of winter as ever falls to the lot of semitropic California.

The Los Angeles Times, no more inclined to speak of the southern cold than the Express, in its issue of Sunday said:

The temperature here has been lower than for a long time before. The snow line on the mountains is much further down the mountains than usual, while some mountains have been covered that have heretofore only rarely shown any snow. Thin ice formed on small pools of water here last night. The frost this morning was unusually heavy. There is no reason, however, to believe that the orange trees are injured. Where the frost lasts but a short time there is no danger to orange trees, as has been often demonstrated here before.

It will be noted that both journals are cautious not to say that no damage has resulted to orange trees. As no damage has resulted here in weather of about oftener than otherwise masks to the real the same character, we believe as we hope, propensities and tendencies of their that no injury was inflicted at the south. We of the center and north wish no harm to any industry of the south, or any check to its marvelous advancement. Anything ders. to put that section back a particle would work injury to all California. Because the south is so widely and well known, and has attained such a broad reputation as a tropattained such a broad reputation as a tropical region, is all the more reason for deploring any mishap to it. We do not by the required tax. That State has, however, passed an additional law to protect know enough concerning the conditions there now to form a positive judgment whether the cold snap has done injury of not at the south; we can only hope it has not. A regular press dispatch from Riverside, San Bernardino county, dated on the 8th, says that the lowest temperature was reached there Sunday morning, when the thermometer marked twenty-six degrees "below zero." Of course this was an poses to protect the interests of American error in dispatching; twenty-six degrees above zero was meant. It never declines to zero in the valleys of California, or any where near that mark. But twenty-six degrees above zero is a figure very little differing from the Signal Service report at Sacramento of the lowest temperature reached here during the cold snap. There is, therefore, no reason for either section of the State to force an issue upon this ques-

tion of phenomenal cold. In neither por-

the climate. In the center and north we

know no damage was done. Most of the

oranges of this section were gathered prior

to the advent of the cold wave, and we

had no buds or blossoms to be bitten. In this connection we make note of a species of unfair journalism common to both the press of the north and south The craze for "taking" head lines, "aston ishing" captions and stratling introductions leads both San Francisco and Los Angeles papers to head their weather reports, "zero," "below zero," "excessive cold," etc., etc. Following these headings are weather reports from many points in the State. A few of these give "below zero" records. The stranger naturally supposes that the below zero points, are representative of sections of the State claimed to be semi-tropic. But the fact is that every instance of a record "below zero" relates to towns in localities of high altitude, where snow falls every winter, and "below zero" is not only not phenomenal, but common It is sheer libel to group weather reports from the tops of the lofty Sierra ranges without statements showing the altitude, with reports from valley sections where it is phenomenal for the freezing point to be reached. Thus, the tourist cannot be expeet to know that Murphys, Cisco, Truckee, Yreka, Blue Canyon are mountain localities where snow falls every winter season, and sometimes to the depth of ten or fifteen is an unnecessary tax so far as the Federal Government is concerned, and when the feet. Finding reports from these points grouped with those from Sacramento, Marysville, Colusa, Woodland, Napa, Stockton and other valley and semi-tropic sections, and under the common sensaled to believe that in the productive sections of the State, to which we are now inviting his attention, arctic weather has take great pleasure in selling at our own prevailed. Let us have less sensationalism and more discretion and honesty in jour-

ualism in reporting these matters. CHANGE IN EXECUTIONS.

and odiousness that would attach to death upon the scaffold. There would be no sickly-sentimental women weeping over the condemned in his cell: no rush of reporters in unworthy emulation to note political situation is decidedly improved, how he spent the last hours of life; no that the European Cabinets confine themfalse sympathy expended upon the murderer to the disgust of intelligent people. There would be no posing for dramatic effect, and prisoners would no longer find the gallows-tree the stage for assumed courage and fancied martyrdom, or of that

Thomas Hague appeared and requested that the amount charged him for water for the last half score of years be made a reasonable sum, as it was not. The Superintendent of the Water Works will right the wrong.

Property-owners petitioned that a side-property warrant with him teach the defendant released from custody. When McNie left the Court-room and was half way down the corridor, Sheriff Harris, of Merced, who had a property-owners petitioned that a side-property warrant with him took the defendant released from custody. Property-owners petitioned that a side-walk be placed on the south side of F street, from Seventeenth to Eighteenth, and the Street Commissioner recommended that their request be granted.

Mayor Gregory stated to the Board that their request be granted.

Sheriff Harris, of Merced, who had a proper warrant with him, took the defendant into custody on the same charge. At this his brother was about to sue out another writ, but the prisoner objected, saying that when he arrived at Fresno he would be able to prove his investment. and the Street Commissioner recommended that their request be granted.

Mayor Gregory stated to the Board that Chinatown was being cleaned up in a thorough manner, and in the course of a few days the work would be completed.

A. J. Wilson submitted the names of persons who were owing for plots in the New Helvetia Cemetery. The Board instructed him to see these persons and demand payment, and to report those who refused to do so.

another writ, but the prisoner objected, saying that when he arrived at Fresno he would be able to prove his innocence. The cause of the charge is that some days ago, when in Fresno, he ingratiaed himself into the favor of a rancher, and when the latter had fallen asleep from the effects of liquor he had imbibed during the day, McNie robbed him of \$400. Such is the circumstantial evidence. Or the Liquor Habit Positively Cured by Administering Dr. Haines' Golden Specific.

Golden Specific.

It can be given in a cup of coffee or tea without the knowledge of the person taking it; is absolutely harmless, and will effect a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreck. Thousands of drunkards have been made temperate men who have taken Golden Specific in their coffee without their knowledge, and to-day believe they quit drinking of their own free will. IT NEVER FAILS. The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist. For sale by JOS. MISCELLANEOUS.

Indigestion.

Many persons lose appetite and strength, become emaciated, suffer, and die, because of defective nutrition, who might have been restored to health by Ayer's Sarsaparilla. This medicine acts upon the digestive organs, through the blood, and has effected many wonderful cures. For years I suffered from Loss of Appetite and Indigestion, and failed to find relief, until I began taking Ayer's Sarsaparilla. Three bottles of this medicine

Entirely Cured me, and my appetite and digestion are now perfect.—Fred G. Bower, 496 Seventh st., South Boston, Mass.

I have, for years, suffered acutely from I have, for years, suffered acutely from Dyspepsia, scarcely taking a meal, until within the past few months, without enduring the most distressing pains of Indigestion. My stomach sometimes rejected all food. I became greatly reduced in strength, and very despondent. Satisfied, at last, that my trouble was of a scrofulous nature, I began taking Aver's Sarsangrilla and believe it has saved my Sarsaparilla, and believe it has saved my life. My appetite and digestion are now good, and my health is perfect. - Oliver T. Adams, Spencer, Ohio.

Ayer's Sarsaparilla, Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1; six bottles, \$5.

DO YOU WANT WEALTH? YES. Then you must first secure health to enable you to fight the battle of life. In these days of deception and fraud it is a great comfort to know that the afflicted have a tried and reliable remedy like Benson's Plasters for the relief of chest pains, weak back, kidney affections, rheumatism, sciatica and aches and pains of every description. Over 5,000 physicians and druggists voluntarily testify to their value in such diseases, and say that Benson's Plaster is the most popular external remedy ever sold by them. Some unscrupulous dealers will try to palm off worthless imitations on careless buyers. Ask for Benson's, and take no other.

KUNUU DIDUCH ELLOO COCCA.

"By a thorough knowledge of the natural taws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocca, Mr. Epps has provided our breakfast tables with a delicately-flavored beverage which may saveus many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong, enough to reuse of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.
